FOR IMMEDIATE RELEASE

**HUMANSCALE HEALTHCARE TO UNVEIL V3 AT HIMSS08
Articulating Wall Mount Offers 51 Inches of Effortless Ergonomic Height Adjustment**

NEW YORK, February 15, 2008 — Humanscale Healthcare will preview the V3 Articulating Wall Mount computer solution at the HIMSS08 Conference & Exhibition. The revolutionary design teams ergonomic comfort and safety with maximum space savings to provide easy computer access in compact healthcare environments.

The V3 allows for instant, effortless ergonomic adjustment of monitor and keyboard supports with the touch of a finger. A perfectly counterbalanced spring mechanism provides adjustments with less than a pound of force. Unlike traditional wall-mounted arms which only allow repositioning from a fixed point, the V3 offers a smooth vertical track enabling an unprecedented 51-inch total adjustment range to accommodate 99% of users in both sitting and standing positions.

Unightly cables stay out of the way when the V3 CPU holder with integrated power strip is mounted at the top of the adjustment track. A hidden cable management system spanning the length of the track and monitor arm keeps cables neatly stored and facilitates easy monitor and keyboard adjustments.

A superior solution for ergonomic computing comfort in tight spaces, the V3 also offers sleek good looks and a contemporary color palette to complement any medical environment.

About Humanscale Healthcare

Humanscale Healthcare provides a wide range of work tools that enhance the comfort and safety of computer users in healthcare environments. A division of Humanscale Corporation, the world's largest provider of ergonomic solutions, Humanscale Healthcare brings a unique perspective on human factors to the healthcare market.

Humanscale products are based on the belief that when design solves a functional problem as simply and elegantly as possible, the resulting form will be honest and timeless—a philosophy that's served the company well. Humanscale was named among I.D. Magazine's top ten "enterprises that help push design forward" along with other design-driven companies including Nike and BMW. And Humanscale's Liberty seating line was featured as one of

the most important design innovations of the past three years in the National Design Triennial at the Smithsonian's Cooper-Hewitt, National Design Museum.

Environmental Statement

Humanscale is committed to environmental sustainability and continually strives to design, engineer and manufacture products that:

- Weigh less, requiring less raw material
- Use fewer parts and manufacturing processes
- Contain a high percentage of recycled content
- Contain a high percentage of recyclable content

Humanscale is also a proud supporter of World Wildlife Fund, and our founder and CEO, Robert King, has served on WWF's National Council since 1999.
