FOR IMMEDIATE RELEASE

**HUMANSCALE HEALTHCARE ANNOUNCES EXPANSION
New Division will Unveil Revolutionary Ergonomic Solutions at HIMSS08**

NEW YORK, February 15, 2008 — A newly expanded Humanscale Healthcare will debut at the HIMSS08 Conference and Exhibition. A division of Humanscale, the world's leading ergonomic solutions provider, Humanscale Healthcare designs and manufactures ergonomic equipment to boost comfort and safety for employees in healthcare environments such as hospitals, surgical centers, physician practices, long-term healthcare facilities and clinics.

Kevin France, previously the director of Boise Healthcare, has been appointed National Sales Manager to develop and manage Humanscale Healthcare, which will provide service throughout North America and utilize healthcare specialists in every metropolitan market. The division is focused primarily on three key healthcare settings—clinical environments, technology centers and administrative offices. New products, including the V3 Articulating Wall Mount, T5 Phase 3 Point-of-Care Technology Cart, and T2 Technology Cart, were designed specifically to improve the comfort of practitioners using computer equipment.

Humanscale Healthcare's V3 and T2 are particularly well suited for clinical environments. The V3 wall mount solution allows for instant, effortless ergonomic adjustment of monitor and keyboard with the touch of a finger. Its vertical track enables an unprecedented 51-inch total adjustment range to accommodate 99% of users in sitting and standing positions. When a caregiver changes the height of the T2, Humanscale Healthcare's newest series of technology carts, no knob or lever adjustments are required; the equipment is suspended in free float, maintaining the position until the next user initiates an adjustment. An ideal solution for budget-conscious facilities, the T2 features a low \$400 list price and up to a 22-inch total adjustment range.

Designed to accommodate healthcare technology, the updated T5 now features improved cable management and sleek new aesthetics. The cart continues to team unmatched mobility and comfort with a high-performance power system for both laptops and PCs.

-MORE-

Humanscale Healthcare will also offer Humanscale's full range of ergonomic tools, including monitor arms, seating and keyboard systems, for clinical and office environments. Already, the Freedom Saddle Seat has been embraced as one of the most comfortable stools available, simultaneously encouraging a healthy posture and allowing caregivers to move in close proximity to the task at hand.

For more information about Humanscale and the company's full range of ergonomic solutions, visit www.humanscale.com or call 800-400-0625.

About Humanscale Healthcare

Humanscale Healthcare provides a wide range of work tools that enhance the comfort and safety of computer users in healthcare environments. A division of Humanscale Corporation, the world's largest provider of ergonomic solutions, Humanscale Healthcare brings a unique perspective on human factors to the healthcare market.

Humanscale products are based on the belief that when design solves a functional problem as simply and elegantly as possible, the resulting form will be honest and timeless—a philosophy that's served the company well. Humanscale was named among I.D. Magazine's top ten "enterprises that help push design forward" along with other design-driven companies including Nike and BMW. And Humanscale's Liberty seating line was featured as one of the most important design innovations of the past three years in the National Design Triennial at the Smithsonian's Cooper-Hewitt, National Design Museum.

Environmental Statement

Humanscale is committed to environmental sustainability and continually strives to design, engineer and manufacture products that:

- Weigh less, requiring less raw material
- Use fewer parts and manufacturing processes
- Contain a high percentage of recycled content
- Contain a high percentage of recyclable content

Humanscale is also a proud supporter of World Wildlife Fund, and our founder and CEO, Robert King, has served on WWF's National Council since 1999.
